

Sheer
Driving Pleasure

INDIVIDUALITY WINS.

SPORTY ACCESSORIES FOR BMW AND BMW M MODELS.

M PERFORMANCE PARTS

EQUIPPED WITH THE EXPERIENCE OF WINNERS.

During a race, fractions of a second decide victory or defeat. The finest nuances in equipment can make all the difference. Participation in motor racing with near-production vehicles is important for BMW M Performance Parts. All motorsport series in which BMW is active, provide valuable data and values from practical experience. BMW racing drivers and BMW developers share their experiences, they optimise aerodynamics and driving behaviour, save weight and improve the cockpit.

By using BMW M Performance Parts, BMW drivers all over the world can use this knowledge. Among them are motorsport fans who are on the road on racetracks, and enthusiastic drivers who want to combine optimum driving dynamics with a sporty, individual appearance in everyday life. Thanks to the large selection of BMW M Performance Parts, you can all tailor your BMW to your personal requirements. The following pages show a selection of popular accessories. Discover the complete range via: [bmw.com](https://www.bmw.com)

MORE PERFORMANCE ACROSS THE BOARD.

Be it exterior or interior, be it aerodynamics, brakes or suspension – on this page and the following double page, we show BMW M Performance Parts that are available for many illustrated BMW and BMW M models. Each individual accessory has been perfectly matched to the respective model and individually tested.

1 Front grilles in black high-gloss/carbon fibre

The front grilles have a geometry identical to that of the standard versions. A visual highlight at the front of the vehicle for an especially elegant, sporty and individual look.

2 Exterior mirror caps, carbon fibre

Meticulously hand-made from carbon fibre, the striking exterior mirror caps highlight the technologically advanced character of the vehicle. Their dynamic design ensures a particularly high-quality look plus an individual, sporty accent.

3 Suspension (up to 20mm lower)

Ecstasy at your fingertips: The suspension ensures a driving experience that is more dynamic than ever before. The shock absorbers, spring struts and stabilisers were optimised in line with motor-sport criteria and perfectly complement one another. A striking head-turner: the springs in sporty red.

4 Car cover

This precisely fitted car cover protects your car reliably against sunlight, water, dirt and scratches as well as against snow and ice in winter.

5 Perforated brake discs

Ventilated lightweight sport brake discs, grooved and, depending on the version, perforated. Equipped for high thermal stress.

6 Rear spoiler

Ensures optimised aerodynamic values. Made of different materials, their dynamic design sets individual accents at the rear of the vehicle.

7 Tyre bags

Protect both the driver and the vehicle from soiling. A reinforced handle ensures comfortable transport of the wheels. The special marking allows the individual tyres to be quickly categorised at any time.

1 Steering wheels

Ensure a more direct steering feel and create an unmistakable motorsport feeling in the cockpit. They inspire with their striking shapes and an extremely pronounced grip area, for example in Alcantara. The race display, which can be partially supplemented, provides current data relevant to motorsport with a stopwatch and g-meter. For more information about the various versions and materials, please contact your BMW Service partner or visit bmw.de.

2 Gearshift paddles

Covered with a very fine carbon fabric, finished in PUR paint and polished to a high gloss. The shift icons in M Red set additional motorsport accents.

3 Floor mats

Add an individual athletic touch to the footwell, making the whole car appear more dynamic. With M logo and M Performance lettering. The premium design is rounded out by leather-look surrounds with decorative stitching in contrast colours and a band in the M colours.

3 Pedal covers

In solid stainless steel give the footwell a distinctively dynamic high-tech look thanks to the asymmetrical design of their rubber treads.

3 Footrest

Adds a dynamic touch to the footwell and prevents the feet from slipping off thanks to the raised treads.

4 Drive Analyser

Comprises an OBD (on-board diagnostics) stick and a smartphone app. It facilitates the recording and analysis of numerous kinds of data relating to driving and driving dynamics, such as peak values, engine data, braking distances, GPS data, videos and more.

5 Key case

In an impressive combination of carbon and Alcantara. Thanks to a socket head screw in M Blue, the key is securely attached to the case. Timelessly elegant, technically sophisticated – it is a clear expression of the driver's affinity with motorsports.

6 LED door projector with M Performance designation

Is automatically activated when the doors are opened. It projects the M Performance designation onto the ground next to the car using an interchangeable slide.

BMW 1 Series

READY FOR BOOST MODE?

Kidney grille in mesh design

With slats enclosed in a frame in black high-gloss. It lends the front of the vehicle an even more powerful and more assertive character. For a unique appearance that makes a clear impression.

Rear diffuser, carbon fibre

Elaborately hand-manufactured. With their chiselled look, the striking fins ensure that the car looks more dynamic than ever. The rear diffuser perfectly complements the vehicle design and makes the car's muscular look even more impressive with its striking design.

19" Double-spoke style 555 M

Weight-optimised light-alloy wheels in Bicolor Jet Black matt, gloss-lathed, with a reverse twist on the spokes. Convey sportiness down to the smallest detail.

Roof-edge spoiler, black high-gloss

Sets fine athletic accents at the rear of the vehicle. At the same time, it contributes to optimised aerodynamics. The spoiler is perfectly tailored to the vehicle design and can be painted in the body colour.

Aeroflicks in black high-gloss

Tuned to the front apron of the vehicle in the wind tunnel, they ensure sportier handling. They are made of high-strength polyurethane and give the vehicle a striking racing car look with their colouring.

Front splitter, black high-gloss

Provides optimum aerodynamics and highlights the vehicle's masculine appearance in a highly exclusive manner. The front splitter is perfectly tailored to the vehicle design.

Exterior mirror caps, carbon fibre

Underline the vehicle's high-tech pedigree, adding an individual athletic touch.

1 Kidney grille in mesh design | **2** Roof-edge spoiler black high-gloss | **3** Rear diffuser, carbon fibre | **4** Kidney grille in mesh design, Front splitter black high-gloss, Aeroflicks black high-gloss, 19" Double-spoke style 555 M, Exterior mirror caps carbon fibre, Side decal Frozen Black, Side skirt extension black high-gloss

More accessories on pages 4–7, overview table on page 54/55.

BMW 2 Series

SPORTS SPIRIT GROWN STRONGER.

Rear diffuser, Black matt

Made of premium quality PUR material and perfectly complements the rear design. It creates an even more exclusive appearance – and makes the car's sporty look even more impressive.

19" Double-spoke style 405 M

High-quality forged wheel in Bicolor Orbit Grey, gloss-lathed, with four-colour BMW M logo.

Front attachment Black matt

Optimises the aerodynamic values and gives the vehicle front a much more powerful expression. Made of robust PUR, can be partially painted in body colour on request.

Tailpipe trims Chrome/carbon fibre

Carbon fibre cover and other characteristic design features make the tailpipe trims seem extremely solid and powerful. Thermal decoupling from the tailpipe improves the quality of the overall concept.

Exterior mirror caps, carbon fibre

Underline the vehicle's high-tech pedigree, adding an individual athletic touch.

Side skirt adhesive film

In Black matt perfectly suits the car's design, visually lengthening its proportions. With M Performance designation.

1 Front grille black high-gloss, Exterior mirror caps carbon fibre, Side skirt extension, Side skirt adhesive film, Front attachment Black matt, 19" Double-spoke style 405 M | **2** 19" Double-spoke style 405 M | **3** Tailpipe trim carbon fibre, Rear diffuser, Black matt

More accessories on pages 4–7, overview table on page 54/55.

BMW 3 Series

TRUE CHARACTER.

20" Cross-spoke style 794 M

The high-quality 20" forged wheels are designed in Bicolor Jet Black, gloss-lathed and feature the colour M logo.

Front splitter Pro, carbon fibre

Provides optimum aerodynamics and highlights the vehicle's masculine appearance in a highly exclusive manner. A unique motorsport look for anybody who refuses to compromise.

Rear diffuser, carbon fibre

Elaborately hand-manufactured. With their chiselled look, the striking fins ensure that the car looks more dynamic than ever.

Rear spoiler, carbon fibre

Greatly enhancing the high-quality, sporty appearance of the vehicle. The high-tech material carbon fibre makes it extremely lightweight, and at the same time very sturdy. The rear spoiler optimises aerodynamics and enables even more athletic driving characteristics.

Interior trims, carbon fibre

Carbon fibres sealed with a special filler – and then finished with a protective varnish in silk matt. The trim strips impress with their unique feel.

1 Exterior mirror caps carbon fibre, Side skirt extension Black matt, Side decal Frozen Black, 20" Y-spoke style 795 M Jet Black matt, Rear diffuser carbon fibre, Rear spoiler carbon fibre | **2** 20" Cross-spoke style 794 M Bicolor | **3** Front splitter Pro carbon fibre | **4** Interior trims carbon fibre

More accessories on pages 4–7, overview table on page 54/55.

20" Y-spoke style 795 M

The high-quality 20" forged wheels are designed in Jet Black matt with the colour M logo and milled M Performance lettering. Also available in Bicolor Ferric Grey, gloss-milled.

Kidney grille in black high-gloss

Emphasises the sporty and dynamic character of the vehicle. The surrounds of the front grille come in black high-gloss.

Side skirt extension, black high-gloss

Enhances the vehicle's athletic character. It is perfectly tailored to the vehicle design. For a particularly unique, powerful and dynamic look.

Exterior mirror caps, carbon fibre

Underline the vehicle's high-tech pedigree, adding an individual athletic touch.

Side decal, Frozen Black

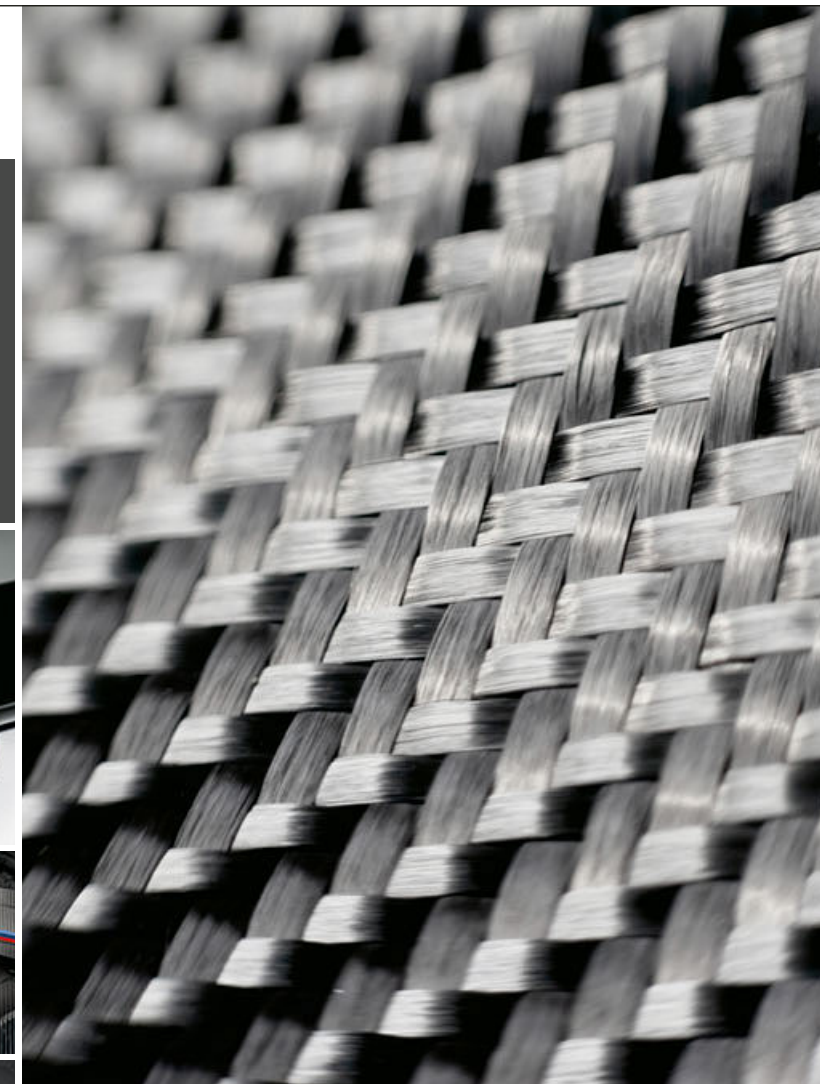

Underscores the vehicle's sporty, individual character. The high-quality material is very resistant, durable and suitable for car washes.

1 20" Y-spoke style 795 M | **2** Front splitter Pro carbon fibre, Front splitter black high-gloss, Front grille black high-gloss, Exterior mirror caps carbon fibre, Side skirt extension black high-gloss, Side decal Frozen Black, 20" Y-spoke style 795 M, 18" braking system, Rear spoiler carbon fibre

More accessories on pages 4–7, overview table on page 54/55.

VERY STRONG.

Very light, but very strong: As carbon fibre reinforced plastic (CFRP) has a lower density than steel or aluminium, significant weight savings can be achieved with a functional design.

Carbon fibres made of carbon are extremely strong and have excellent stiffness. They are first spun into threads, then woven together and finally embedded in a plastic matrix.

CARBON FIBRE IMPROVES PERFORMANCE.

For BMW M Performance Parts, carbon fibre is a key technology in the development of sporty accessories. Intelligent lightweight construction – e.g. for the roof, bonnet or boot lid – improves the specific power-to-weight ratio of the vehicle and thus increases its dynamics. Carbon fibre also cuts a fine figure with aerodynamic attachments and with exterior and interior surfaces. Here, the material shines above all with its race-typical appearance. Three variants of the material are available:

- 1** In the CF-SMC-Carbon variant, the hand-crafted production ensures a previously unattained appearance. The careful manual processing of the carbon-fibre material creates the special depth effect and a finely differentiated, multi-layered look.
- 2** The classic carbon fibre is coated with varnish. This brings out the depth effect and the structure of the fabric particularly well.
- 3** An open-pored carbon-fibre structure was developed especially for the interiors. The fibres are sealed with a filler and coated with a thin layer of silk matt protective paint. The structure of the carbon-fibre material remains open and can therefore be felt. Visually and haptically these surfaces offer a special experience – especially in combination with Alcantara.

BMW 4 Series

AESTHETICS WITH SPECIAL POWER.

Rear diffuser, black high-gloss

Made of premium quality PUR material and perfectly complements the rear design. It creates an even more exclusive appearance – and makes the car's sporty look even more impressive.

Rear spoiler, carbon fibre

Emphasises the premium-quality, dynamic appearance of the car. The high-tech material carbon fibre makes it extremely lightweight, and at the same time very sturdy. The rear spoiler optimises aerodynamics and enables even more athletic driving characteristics.

20" Double-spoke style 624 M

The high-quality 20" light alloy wheels are forged and designed in Bicolor Black matt, milled and feature the four-colour BMW M logo. Also available in Silver/milled and polished.

Side skirt extension, Black matt

Enhances the sporty character of the vehicle. It is perfectly tailored to the vehicle design. For a particularly unique, powerful and dynamic look.

Gearshift knob and handbrake grip Carbon

The ergonomic gearshift knob Pro with illuminated shift diagram and the sporty handbrake grip made of open-pored carbon fibre and Alcantara ensure an exclusive racing atmosphere in the interior as well.

1 Side skirt extension, Black matt | **2** Gearshift knob and handbrake grip carbon fibre | **3** Side skirt adhesive film, Rear spoiler carbon fibre, Rear diffuser, black high-gloss, Tailpipe trims Chrome, 20" Double-spoke style 624 M

More accessories on pages 4–7, overview table on page 54/55.

BMW 5 Series

PERSONALITY MADE TO MEASURE.

Front grille Iconic Glow

Gives the vehicle a unique radiance. LED lighting exclusively sets the scene for the kidney grille and the zone in front of the vehicle from opening to starting and from switching off the ignition to locking the vehicle.

Front attachment, carbon fibre

Meticulously hand-crafted in 100% carbon fibre. For optimised aerodynamics.

20" Double-spoke style 669 M

The high-quality 20" light alloy wheel is forged, finished in Bicolor Black matt and features an exclusive combination of milled and gloss-lathed visible sides and the BMW M logo. Also available in Orbit Grey.

Rear diffuser, carbon fibre

Elaborately hand-manufactured. With their chiselled look, the striking fins ensure that the car looks more dynamic than ever.

1 Front apron carbon fibre, Front attachment, carbon fibre, Front grille black high-gloss, Exterior mirror caps carbon fibre, Side skirt extension, Side skirt adhesive film, Accent stripes, 20" Double-spoke style 669 M, 19" braking system | **2** Front attachment, carbon fibre | **3** 20" Double-spoke style 669 M | **4** Front grille Iconic Glow | **5** Tailpipe trim carbon fibre, Rear diffuser, carbon fibre

More accessories on pages 4–7, overview table on page 54/55.

BMW 6 Series

YOUR DEMANDS DECIDE.

21" Double-spoke style 650 M

The high-quality 21" forged wheels are designed in Bicolor Jet Black, gloss-lathed and feature the M logo. For a very sporty appearance. Also available in Jet Black design.

19" braking system

For short braking distances – even under high thermal stress. With ventilated sport brake discs. In dynamic BMW M Performance Red.

Tailpipe trims Chrome/carbon fibre

Carbon fibre cover and other characteristic design features make the tailpipe trims seem extremely solid and powerful. Thermal decoupling from the tailpipe improves the quality of the overall concept.

Kidney grille in black high-gloss

Emphasises the sporty and dynamic character of the vehicle. The surrounds of the front grille come in black high-gloss.

Exterior mirror caps, carbon fibre

Underline the vehicle's high-tech pedigree, adding an individual athletic touch.

Side decal, Frozen Black

Underscores the vehicle's sporty, individual character. The high-quality material is very resistant, durable and suitable for car washes.

1 Tailpipe trim carbon fibre | 2 Exterior mirror caps carbon fibre | 3 Front grille black high-gloss, Exterior mirror caps carbon fibre, Side decal Frozen Black, 21" Double-spoke style 650 M, 19" braking system

More accessories on pages 4–7, overview table on page 54/55.

From forging the blank to flow-forming the rim bed, milling, high-gloss polishing and multicoat painting with a matt finish, approx. 22 working hours are required for the 763 M forged wheel.

WHEELS: NOT REINVENTED, BUT FURTHER DEVELOPED.

The sporty BMW M Performance Parts wheels shape the character of the vehicle. The reduction of the unsprung mass also improves the dynamic response behaviour. Thanks to modern manufacturing processes, an M Performance Parts wheel is up to 2 kg lighter than a conventionally produced wheel.

In the flow-forming process, a higher density is achieved by rolling the aluminium in the rim bed. This treatment makes the rim bed more stable, thinner and lighter at the same time.

In forging technology, special alloys are compressed at pressures of up to 7000 tons. This allows filigree shapes to be created that are not possible with conventional processes. Forged wheels are therefore standard in high-end motorsport.

For all M Performance Parts wheels, the spokes have a reverse twist. This removes excess material and saves weight. Careful deburring gives the wheels their flawless surface. During further processing, gloss-lathing, gloss-milling and special coatings enhance the appearance. The M Performance Parts branding – as print or 3D milling – completes the sporty look.

Perfect contact with the road is ensured by Original BMW complete wheels with star-marked tyres and TPMS sensors and, depending on the model, also with run-flat tyres. They were developed in cooperation with BMW and adapted to the driving characteristics of the corresponding BMW models.

FOR SPECIAL APPLICATIONS:

The General Grabber AT3 for the BMW X5, developed for off-road use, can be driven as a regular winter tyre.

For the sporty: the Cup tyre with MOT approval and higher coefficients of friction. Its lower proportion of negative tread increases grip and thus performance.

BMW 7 Series

PERFORMANCE, REDEFINED.

20" Double-spoke style 648 M

The premium-quality 20" winter complete wheels are designed in Bicolor Orbit Grey, gloss-lathed and feature the colour M logo.

21" Double-spoke style 650 M

The high-quality 21" light alloy wheels are forged and designed in Jet Black and feature the BMW M logo.

Exterior mirror caps, carbon fibre

Underline the vehicle's high-tech pedigree, adding an individual athletic touch.

1 20" Double-spoke style 648 M | **2** 21" Double-spoke style 650 M | **3** Exterior mirror caps carbon fibre | **4** Front grille black high-gloss, Exterior mirror caps carbon fibre, Side skirt adhesive film, 20" Double-spoke style 650 M

More accessories on pages 4–7, overview table on page 54/55.

BMW 8 Series

ANYTHING BUT ORDINARY.

20" Multi-spoke style 732 M

The high-quality 20" forged wheels are designed in Bicolor Night Gold, gloss-lathed and gloss-milled with the colour M logo and lend the vehicle a very sporty appearance with their look.

19" Double-spoke style 786 M

High-quality 19" winter complete wheels in Jet Black matt, compatible with snow chains. Designed as forged wheels with colour M logo and milled M Performance lettering.

20" Y-spoke style 763 M

The high-quality 19" forged wheels are designed in Frozen Gold with the colour M logo and milled M Performance lettering.

Rear diffuser insert, carbon fibre

Elaborately hand-manufactured. With their chiselled look, the striking fins ensure that the car looks more dynamic than ever. The rear diffuser perfectly complements the vehicle design and makes the car's muscular look even more impressive with its striking design.

M air intakes carbon fibre

Enhance the high-quality, sporty appearance of the vehicle. The elements consist of a black high-gloss decorative grill and air intakes made of high-quality carbon fibre. For an even more distinctive look at the vehicle front.

Side skirt extension, carbon fibre

Elaborately hand-manufactured. It optically lengthens the proportions of the vehicle, lending it an even more dynamic appearance. For an extremely athletic and elegant look.

1 20" Multi-spoke style 732 M, 19" braking system, Front grille carbon fibre, Air Breather carbon fibre | **2** Side skirt extension carbon fibre, M Performance designation sticker | **3** 19" Y-spoke style 786 M | **4** 20" Y-spoke style 763 M in Frozen Gold | **5** M front air intakes carbon fibre, M conducting element Air curtain, carbon fibre

More accessories on pages 4–7, overview table on page 54/55.

BMW M2

SHOW YOURSELF. IT IS YOUR APPEARANCE.

Bonnet, carbon fibre

The high-tech material ensures a particularly sporty and exclusive appearance and considerable weight reduction. Visual highlight: the power dome made of painted carbon fibre. The remaining surface of the carbon fibre bonnet is painted in the vehicle colour.

Vehicle roof, carbon fibre

The extensive use of this high-tech material lends the vehicle not only an exceptionally individual look: The lightweight component also ensures significant weight reduction.

Side panel, carbon fibre

Perfectly matches the design of the car. It provides not just a particularly sporty and exclusive look, it also improves the aerodynamics of the car and reduces the overall weight.

Rear diffuser, carbon

Elaborately hand-manufactured. With their chiselled look, the striking fins ensure that the car looks more dynamic than ever. The rear diffuser perfectly complements the vehicle design and makes the car's muscular look even more impressive with its striking design.

Tailgate, carbon fibre

Improves the aerodynamics, reduces the weight and lends the rear of the car an extraordinarily striking look. Above all, the sporty-individual design captivates with its proportion of fine carbon fibre. Even the inside of the tailgate is made of carbon fibre.

1 Bonnet carbon fibre | **2** Vehicle roof carbon fibre | **3** Side panel carbon fibre, 19" Y-spoke style 763 M | **4** Motorsport decal, 19" Y-spoke style 763 M, M Sport brake system Red, Side panel carbon fibre, Skirt extension carbon fibre, Side skirt designation, Tailgate carbon fibre, Rear spoiler carbon fibre (flow-through), Rear diffuser carbon fibre, Tailpipe trim carbon fibre

More accessories on pages 4–7, overview table on page 56/57.

19" Y-spoke style 763 M

The high-quality 19" forged wheels are designed in Frozen Gold, with the colour M logo and milled M Performance lettering. Also available in Jet Black matt.

Front attachment, carbon fibre

Meticulously hand-crafted in 100% carbon fibre. For optimised aerodynamics.

Skirt extension carbon fibre

Is meticulously hand-crafted and visually lengthens the proportions of the vehicle, lending it an even more dynamic appearance. For an extremely athletic and elegant look.

Front grille, carbon fibre

High-quality and meticulously hand-crafted. The decorative slats are made of sturdy plastic. A visual highlight at the front of the vehicle for an especially elegant, sporty and individual look.

Motorsport decal

In the M colours further accentuates the sporty character of the vehicle and makes a clear reference to racing. The high-quality foil set is car-wash proof and optimally matched to the vehicle geometry.

1 Motorsport decal, 19" Y-spoke style 763 M in Black matt, M Sport brake system Red, Side panel carbon fibre, Skirt extension carbon fibre, Side skirt designation, Front attachment carbon fibre, Front grille carbon fibre, Rear spoiler, carbon fibre (flow-through), Exterior mirror caps carbon fibre, Bonnet carbon fibre, Vehicle roof carbon fibre | **2** 19" Y-spoke style 763 M in Frozen Gold

More accessories on pages 4–7, overview table on page 56/57.

LIGHTER MEANS FASTER.

Modern lightweight construction pushes the limits of what is feasible. BMW M Performance Parts and BMW M show what is possible today thanks to the latest technology from racing – with the BMW M Performance Parts Concept based on the BMW M2. It pulls out all the stops of material and manufacturing technology. Its weight is 60 kg less than that of the series production car – a big difference in racing. Many of the components used are part of the current BMW M Performance Parts.

The concept car stands on forged 19" M Performance complete wheels Y-spoke style 763 M in Frozen Gold matt and semislicks. They are 6 kg lighter

than the standard wheels, reduce unsprung mass and thus improve driving dynamics. The carbon-fibre bonnet saves an additional 8 kg and the M Performance side panels save a further 3 kg. The M Performance carbon-fibre Sport seats upholstered with Alcantara reduce weight in the interior. That saves 9 kg and elegant lightweight rear seats save another 13 kg.

The BMW M Performance Parts Concept is visually refined with fine contrast stitching and gold accents.

FESTIVAL OF SPEED.

Once a year, Goodwood House in the south of England hosts what is probably the craziest motor party in the world – including mountain racing. Old and new racing champions celebrate their skills here. Here, the BMW M Performance Parts Concept made its debut in 2018.

Many will only see it from behind: The carbon-fibre boot lid saves 5 kg in weight.

BMW M3

SPORT BADGES TO CHOOSE FROM.

Front splitter, carbon fibre

Meticulously hand-crafted in 100% carbon fibre. From a technical standpoint, it provides optimum aerodynamics, while visually it highlights the vehicle's masculine appearance in a highly exclusive manner. The front splitter is perfectly tailored to the vehicle design.

Rear spoiler, carbon fibre

Emphasises the premium-quality, dynamic appearance of the car. The high-tech material carbon fibre makes it extremely lightweight, and at the same time very sturdy. The rear spoiler optimises aerodynamics and enables even more athletic driving characteristics.

Air Breather decorative slat carbon fibre

Its dynamic design emphasises the vehicle's athletic character. An elegant visual highlight on the side of the car – in durable BMW quality.

Motorsport decal

In the M colours further accentuates the sporty character of the vehicle and makes a clear reference to racing. The high-quality foil set is car-wash proof and optimally matched to the vehicle geometry.

Handbrake grip with Alcantara gaiter

Finished in a combination of lacquered carbon and high-quality Alcantara. The gaiter is refined with stitching in the BMW M colours. This emphasises the motorsport feel in the interior and perfectly complements other BMW M Performance Parts.

1 Front grille Black, Front attachment, Front splitter carbon fibre, Motorsport decal, Exterior mirror caps carbon fibre, Side panel decorative slats black high-gloss **2** Rear spoiler carbon fibre **3** Handbrake grip carbon fibre with Alcantara gaiter, Centre console trim carbon fibre

More accessories on pages 4–7, overview table on page 56/57.

BMW M4

FROM MOTORSPORT TO THE ROAD.

19"/20" Y-spoke style 763 M

The high-quality 19"/20" forged wheels (FA/RA) are designed in Jet Black matt with the colour M logo and milled M Performance lettering. Also available in Frozen Gold.

Rear spoiler, carbon (flow-through)

The unmistakable touch of motor sport at the rear. Thanks to optimised aerodynamics it creates a noticeably more athletic driving performance. Dynamic form at its most individual.

Front attachment, carbon fibre

Provides optimum aerodynamics and highlights the vehicle's masculine appearance in a highly exclusive manner. A unique motorsport look for anybody who refuses to compromise.

Side skirt extension, Black matt

Enhances the vehicle's athletic character. It is perfectly tailored to the vehicle design. For a particularly unique, powerful and dynamic look.

Gear lever trim, carbon fibre

Made of an extremely fine CFRP material. The carbon fibre has been finished in PUR paint and polished to a high gloss. For an exclusive motorsport look in the cockpit.

1 19"/20" Y-spoke style 763 M in Jet Black matt | **2** Rear spoiler carbon fibre (flow-through) | **3** Gear lever trim, carbon fibre | **4** Front grille Black, Front attachment carbon fibre, Front splitter carbon fibre, Side skirt extension Black matt, Motorsport decal, Exterior mirror caps carbon fibre, Side panel decorative slats black high-gloss, Side skirt adhesive film

More accessories on pages 4–7, overview table on page 56/57.

BMW M5

SHOW STRENGTH.

Front splitter, carbon fibre

Meticulously hand-crafted in 100% carbon fibre. From a technical standpoint, it provides optimum aerodynamics, while visually it highlights the vehicle's masculine appearance in a highly exclusive manner. The front splitter is perfectly tailored to the vehicle design.

Rear diffuser, carbon fibre

Elaborately hand-manufactured. With their chiselled look, the striking fins ensure that the car looks more dynamic than ever. The rear diffuser perfectly complements the vehicle design and makes the car's muscular look even more impressive with its striking design.

Engine cover carbon fibre

The ultra lightweight material is lavishly crafted by hand with multiple layers of lacquer polished to a high gloss. That gives it a unique appearance of depth. The result is the ultimate racing sport look in the engine compartment.

Front grille, carbon fibre

High-quality and meticulously hand-crafted. The decorative slats are made of sturdy plastic. A visual highlight at the front of the vehicle for an especially elegant, sporty and individual look.

Exterior mirror caps, carbon fibre

Underline the vehicle's high-tech pedigree, adding an individual athletic touch.

Motorsport decal

In the M colours further accentuates the sporty character of the vehicle and makes a clear reference to racing. The high-quality foil set is car-wash proof and optimally matched to the vehicle geometry.

1 Front grille carbon fibre | **2** Tailpipe trim carbon fibre, Rear diffuser carbon fibre | **3** Engine cover carbon fibre | **4** Front attachment carbon fibre, Carbon ceramic braking system, Motorsport decal, Front grille black high-gloss, Exterior mirror caps carbon fibre, Side skirt extension carbon fibre, Side skirt adhesive film, Air Breather decorative slat carbon fibre

More accessories on pages 4–7, overview table on page 56/57.

BMW M8

MAXIMALLY M.

20" Y-spoke style 863 M

Weight-optimised forged wheel Y-spoke style in Ferric Grey matt, with milled M Performance lettering. The exclusive look lends the vehicle a strong athletic appearance.

Front grille, carbon fibre

High-quality and meticulously hand-crafted. The decorative slats are made of sturdy plastic. A visual highlight at the front of the vehicle for an especially elegant, sporty and individual look.

Side skirt extension, carbon fibre

Elaborately hand-manufactured. It optically lengthens the proportions of the vehicle, lending it an even more dynamic appearance. For an extremely athletic and elegant look.

Floor mats

Add an individual athletic touch to the footwell, making the whole car appear more dynamic. With M logo and M Performance lettering.

1 Front grille carbon fibre, 20" Y-spoke style 863 M, Side skirt extension carbon fibre, Designation sticker | **2** 20" Y-spoke style 863 M | **3** Side skirt extension carbon fibre | **4** Floor mats

More accessories on pages 4–7, overview table on page 56/57.

WHO INVENTED IT?

Alcantara was invented in 1970 by the Japanese Miyoshi Okamoto and is today the registered trademark of the Italian company Alcantara S.p.A. Since 1972, the entire world production has been manufactured in a specialised factory in Nera Montoro (Umbria), Italy.

Extremely fine and very strong fibres as well as great care during processing are the prerequisites for the high quality and pleasant feel of Alcantara.

ALCANTARA – MATERIAL FOR INTERIOR DREAMS.

Alcantara is an innovative material with a wide range of applications. It impresses with its pleasant feel and elegant appearance. Its unique technical characteristics make it the first choice for equipping sporty vehicles.

Alcantara weighs only half as much as leather and thus saves weight. Since a sporty driving style can also be sweat-inducing, the high breathability of the fabric is another advantage. Alcantara seat covers do not heat up too much in summer and feel comfortably warm in winter. The same applies when used as upholstery material for steering wheels, which it also gives a pleasant grip. Further advantages are the even texture and problem-free processing – also in combination with leather or carbon.

Alcantara is extremely robust and very durable even without care. If soiled, it can be cleaned with mild soapy water. And the environment has also been taken into account. Since 2009, Alcantara has been certified as CO₂-neutral over its entire life cycle.

BMW X1

SPORTY ACTION.

20" Double-spoke style 717 M

The high-quality 20" light alloy wheels in Jet Black matt are weight-optimised with flow forming and lend the vehicle a very sporty appearance with their exclusive look.

Kidney grille in Black matt

Emphasises the sporty and dynamic character of the vehicle. The surrounds of the front grille come in black high-gloss.

Exterior mirror caps, carbon fibre

Underline the vehicle's high-tech pedigree, adding an individual athletic touch.

Side skirt adhesive film

In black high-gloss perfectly suit the car's design, visually lengthening its proportions. With M Performance designation.

1 Front grille Black matt, Exterior mirror caps carbon fibre, Side skirt adhesive film, 20" Double-spoke style 717 M | **2** Side skirt adhesive film

More accessories on pages 4–7, overview table on page 54/55.

BMW X2

WITH A STRONGER PRESENCE.

18" Y-spoke style 711 M

With their exclusive look, the high-quality 18" forged winter complete wheels in Ferric Grey give the vehicle a particularly sporty touch.

20" Double-spoke style 717 M

The high-quality 20" light alloy wheels in Jet Black matt are weight-optimised with flow forming and lend the vehicle a very sporty appearance with their exclusive look.

Kidney grille in black high-gloss

Emphasises the sporty and dynamic character of the vehicle. The surrounds of the front grille come in black high-gloss.

Side decal, Frozen Black

Give the car a highly individual and dynamic appearance. The position of the decal above the side skirt and on the front apron emphasises the car's characteristic design features and proportions.

1 18" Y-spoke style 711 M | **2** Side decal Frozen Black | **3** Front grille black high-gloss, Side decal Frozen Black, Exterior mirror caps carbon fibre, 20" Double-spoke style 717 M

More accessories on pages 4–7, overview table on page 54/55.

BMW X3/BMW X4

POWER WITHOUT FRONTIERS.

19" Double-spoke style 698 M

Winter complete wheel in Orbit Grey. The exclusive look lends the vehicle a strong athletic appearance.

21" Y-spoke style 701 M

The high-quality 21" light alloy wheels are forged, designed in Bicolor Jet Black matt, gloss-lathed, weight-optimised and feature the M logo.

Rear spoiler, black high-gloss

Adds an elegantly athletic accent to the rear of the vehicle. At the same time, it contributes to optimised aerodynamics. The spoiler is perfectly tailored to the vehicle design and can be painted in the body colour.

1 Front grille black high-gloss, Side decal Frozen Black, Exterior mirror caps carbon fibre, 19" Double-spoke style 698 M | **2** 21" Y-spoke style 701 M | **3** Front grille black high-gloss, Side decal Frozen Black, Exterior mirror caps carbon fibre, 21" Y-spoke style 701 M | **4** Rear spoiler black high-gloss

More accessories on pages 4–7, overview table on page 54/55.

BMW X5

MAKES xDRIVE EVEN STRONGER.

20" Star-spoke style 748 M

The high-quality 20" light alloy wheels with all-terrain tyres are designed in Jet Black matt with the colour M logo and lend the vehicle a very sporty appearance with their look.

22" Star-spoke style 749 M

Weight-optimised light alloy wheels in Bicolor Jet Black, gloss-lathed with M Performance lettering and colour M logo.

Rear diffuser, carbon

Elaborately hand-manufactured. With their chiselled look, the striking fins ensure that the car looks more dynamic than ever. The rear diffuser perfectly complements the vehicle design and makes the car's muscular look even more impressive with its striking design.

Front and rear winglets, carbon fibre

Broaden the vehicle rear, enhancing its sporty, exclusive look. They are perfectly matched to the design of the vehicle and are in perfect harmony with other exterior components made of carbon fibre.

Air inlet trims, carbon fibre

Set striking motorsport accents on the front of the vehicle. The trims are perfectly matched to the design of the bumper and are in perfect harmony with other exterior components made of carbon fibre.

1 Air inlet trims carbon fibre, Front and rear winglets carbon fibre, Exterior mirror caps carbon fibre, Side decal Frozen Black, 20" Star-spoke style 748 M, 19" braking system | **2** 22" Star-spoke style 749 M | **3** Rear winglets carbon fibre, Rear diffuser carbon fibre

More accessories on pages 4–7, overview table on page 54/55.

3

BMW X6

EXTRA POWER FOR EXCEPTIONAL ATHLETES.

21" Double-spoke style 599 M

Weight-optimised light alloy wheels in Bicolor Orbit Grey matt, gloss-lathed with the colour M logo.

Front splitter, carbon fibre

Meticulously hand-crafted in 100% carbon fibre. For optimised aerodynamics.

Rear spoiler, carbon fibre

Emphasises the premium-quality, dynamic appearance of the car. The high-tech material carbon fibre makes it extremely lightweight, and at the same time very sturdy. The rear spoiler optimises aerodynamics and enables even more athletic driving characteristics.

Rear diffuser, carbon fibre

Elaborately hand-manufactured. With their chiselled look, the striking fins ensure that the car looks more dynamic than ever.

Kidney grille in Black high-gloss

Emphasises the sporty and dynamic character of the vehicle. The surrounds of the front grille come in black high-gloss.

Rear fins

In particularly tough and durable polyurethane. Their premium, sporty look gives the vehicle's rear profile even more dynamic character. The rear fins also noticeably optimise high-speed handling.

Rear flaps, black high-gloss

Broaden the vehicle rear, enhancing its sporty, exclusive look. They are perfectly matched to the design of the vehicle and are in perfect harmony with other exterior components.

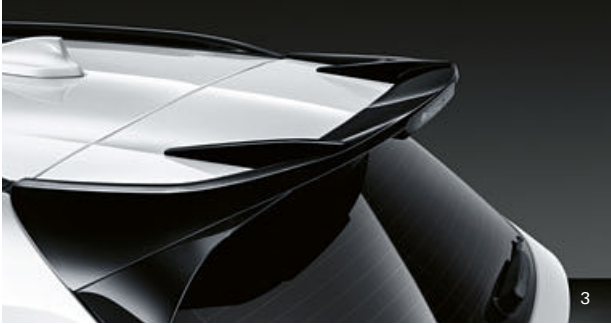

Side skirt adhesive film

In Black matt perfectly suits the car's design, visually lengthening its proportions. With M Performance designation.

1 21" Double-spoke style 599 M | **2** Front grille black high-gloss, Front splitter carbon fibre | **3** Rear fins, Rear spoiler carbon fibre, Rear diffuser carbon fibre, Rear flaps black high-gloss, 21" Double-spoke style 599 M, Accent stripes, Side skirt adhesive film

More accessories on pages 4–7, overview table on page 54/55.

BMW X3 M/BMW X4 M

FAR AHEAD ON ITS OWN ACCOUNT.

Roof-edge spoiler, black high-gloss (X3 M)

Sets fine athletic accents at the rear of the vehicle. At the same time, it contributes to optimised aerodynamics. The spoiler is perfectly tailored to the vehicle design and can be painted in the body colour.

Front grille, carbon fibre

High-quality and meticulously hand-crafted. The decorative slats are made of sturdy plastic. A visual highlight at the front of the vehicle for an especially elegant, sporty and individual look.

Air Breather, carbon fibre

Its dynamic design emphasises the vehicle's athletic character. An elegant visual highlight on the side of the car – in durable BMW quality.

Rear fins (X4 M)

In particularly tough and durable polyurethane. Their premium, sporty look gives the vehicle's rear profile even more dynamic character. The rear fins also noticeably optimise high-speed handling.

Motorsport decal

In the M colours further accentuates the sporty character of the vehicle and makes a clear reference to racing. The high-quality foil set is car-wash proof and optimally matched to the vehicle geometry.

1 Front grille carbon fibre, Roof-edge spoiler black high-gloss, Air Breather carbon fibre, Motorsport decal | **2** Front grille carbon fibre, Air Breather carbon fibre, Motorsport decal | **3** Roof-edge spoiler black high-gloss (X3 M) | **4** Rear fins (X4 M)

More accessories on pages 4–7, overview table on page 56/57.

BMW X5 M

FOR THE STRONGEST IMPRESSION.

Air Breather, black high-gloss

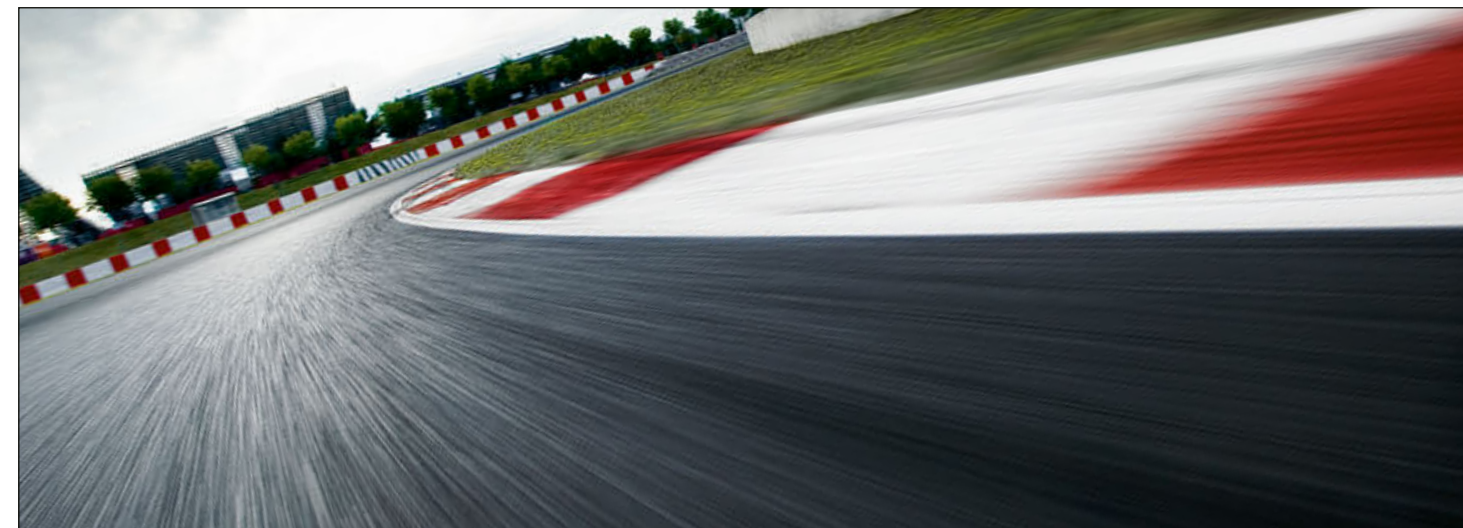

Sporty and robust. Decisively accentuating the bold character of the vehicle's side profile. Unmistakably impressive.

Gear lever trim

Made of an extremely fine CFRP material. The carbon fibre has been finished in PUR paint and polished to a high gloss. For an exclusive motorsport look in the cockpit.

1 Gear lever trim, Centre console carbon fibre | **2** Air Breather black high-gloss, Exterior mirror caps carbon fibre, Front grille Black, Motorsport stripes | **3** Air Breather black high-gloss

More accessories on pages 4–7, overview table on page 56/57.

DRIVING DYNAMICS HAS MANY FACTORS.

Amateurs often attribute the sportiness of a vehicle to its engine performance. Professionals know: Although a powerful engine is the basic requirement for sporty driving, on the racetrack it quickly becomes apparent that other parameters are just as decisive for a good lap time. The key factors here are low weight, weight distribution, road holding, aerodynamics and, last but not least, the performance of the braking system.

at the front and four at the rear, it significantly improves thermal performance under extreme conditions. The M Performance Sport brake pads are even more uncompromising.

Another factor in driving dynamics is the suspension. Retrofitting the BMW M Performance Sport suspension offers outstanding possibilities for individual suspension tuning. The lowering by the threaded suspension between 5 and 20 millimetres results in a lower centre of gravity, which reduces rolling movements and enables higher cornering speeds. The shock absorbers are adjusted separately for the rebound and compression level, depending on the version.

The stronger and more stable the brakes, the longer the driver can stay on the accelerator before the bends. The M Sport brake system in red represents an upgrade of the brake size on the front and rear axle in comparison to the standard brakes. With six pistons

CARBON CERAMIC LASTS LONGER.

The Carbon ceramic brake system saves up to 8 kg in weight compared to the standard brakes, is more powerful and, above all, considerably more stable on the racetrack. In normal use, it lasts an entire car life because its silicon carbide friction coating is virtually wear-free.

The rear spoiler increases the contact pressure and thus contributes to better road holding.

BMW X6 M

NATURALLY TAKE THE LEAD.

Kidney grille in black high-gloss

Emphasises the sporty and dynamic character of the vehicle. The surrounds of the front grille come in black high-gloss.

Air Breather, black high-gloss

Sporty and robust. Decisively accentuating the bold character of the vehicle's side profile. Unmistakably impressive.

Rear fins

In particularly tough and durable polyurethane. Their premium, sporty look gives the vehicle's rear profile even more dynamic character. The rear fins also noticeably optimise high-speed handling.
